NodeJs

.Net

## Education

### Codeworks (2022)

full stack Development  
Certificate Of Completion

## Relevant Experience

### Software Developer @ DevOpportunities LLC

Dec 2022 - Present // Meridian, Id

- Collaborated with a small team of developers to spearhead the design, development, and deployment of website for client.
- Built strong relationships with clients through effective communication and a customer-focused approach, resulting in successful project outcomes and satisfied clients.
- Established clear lines of communication with clients, including regular check-ins and updates, to ensure that their needs and expectations were being met throughout the project.

### Full Stack Immersive @ Boise Code Works

Aug 2022 - Nov 2022 // Boise, Id

- 500+ hours of live coding experience and discussion with industry standard technologies and practices.
- Acquired a strong foundation in full stack web development, including front-end and back-end development, database design and management, and version control with Git.
- Completed full stack development course using Vue.js, NodeJs, C#, & .Net frameworks and MongoDB and SQL databases.
- Honored with "Golden Ducky" award for mastering course material and passing all requirements.

### Cook, Grocery, Cashier @ Boise Co-op (village)

Aug 2015 - Nov 2021 // Meridian, Id

- Demonstrated strong communication skills and the ability to work effectively in a team environment while working in various positions.
- Successfully implemented effective communication strategies to minimize waste and reduce costs.
- Earned the "Outstanding Customer Service" and "Outstanding Worker" awards due to strong work ethic and positive attitude.
- Assisted in training new cashiers and Deli team members, ensuring smooth onboarding and efficient operation of the department.

## Applications

### SamadhiYogaldaho

- Led the development of a custom website for a small yoga business using Vue.js, Bootstrap, Pockethbase, and NodeJs.
- Collaborated with the client to understand her vision for the website, including the desired look and feel, functionality, and content.
- regularly communicated with client to keep her updated on the progress of the website and to gather feedback.

### Better After Books

- Created a full stack app with a team that allows users to search for books, review them, and add them to their favorites list using Google's book API. Inspired by popular sites like GoodReads.com and BookBub.com, the goal was to gain a better understanding of modern social media UI/UX.
- As an architect and developer on the project, I led the creation of a book search and review app using Vue.js, Bootstrap, C#, .Net, SQL, and Auth0.
